FROM : W. P. Bundy *WPB*SUBJECT: Memorandum from *people* *(coast)*

Our people report that we have not received in CIA any report from this man. However, since the report would come in through State channels, it is entirely possible that it has not been disseminated to us.

For your information, our *people* *man* *two* had ~~one or more~~ long personal interviews with *people* *man*, came to the personal conclusions that his reliability was highly doubtful, ~~but thought that his information was so voluminous that it should at least be assembled and sent on for evaluation here. For this reason he suggested the submission of the report. We are not clear whether he told the Embassy people to expect the report, or whether he imparted his doubts to them, or indeed whether the Embassy knew our man had been in touch with~~

State, but suggest instead that you or General Cutler make a routine inquiry stating only that a communication had been received about the submission of the report to the Embassy, and asking whether State had received it, how it evaluated it, and whether State recommended any acknowledgement. In short, since we have disengaged ourselves at least temporarily, we would appreciate its being treated as a routine State matter -- though of course we would appreciate knowing the outcome.
